

LITIGATION

Our Communications team regularly handles high-stakes litigation in federal and state courts and agency proceedings across the country. Our results have helped shape the industry. We litigate compensation disputes between carriers, pole attachment disputes, rate proceedings, and act as general counsel to our clients with millions of dollars of market capitalization at stake. Our team has litigated scores of cases involving the implementation of the '96 Telecom Act, including interconnection disputes, the cost and pricing of UNEs, universal service, and access charges. We have represented our clients' interests in crucial rulemaking proceedings, formal and informal complaint proceedings, and investigations before the FCC's Enforcement Bureau. We have the in-depth knowledge of the communications law, the technology underlying telecom networks, and the business needs of our clients to obtain positive, at times ground-breaking, results.
