- Lead trial counsel in which represented a telecommunications company defending against a putative class action related to a partnership and royalty dispute. The putative class action settled favorably. - Currently represents an aircraft part manufacturer accused of patent infringement.

- Represented Avery Dennison Corporation in several patent suits related to infringement by competitors. The suits settled favorably.
- Lead trial counsel on behalf of Northrop Grumman in case brought by one of Northrop Grumman's subcontractors, Merit Engineering, for breach of contract, conversion, unfair business practices, interference with contract and fraud. After a series of favorable rulings on various motions, the case settled while Merit was in the process of appealing those rulings.
- Lead trial counsel in a case brought by Hi-Rel Connectors against, among others, Northrop Grumman, alleging trade secret misappropriation and breach of contract. The case settled on favorable terms on the eve of trial.
- Represented Buena Vista Home Entertainment in case against Blockbuster Inc. related to the distribution of BVHE's videocassettes. After the court awarded BVHE summary adjudication on the issue of the validity and enforceability of the parties' contract, and specifically the liquidated damages clause therein (covering approximately \$39 million in damages), the case settled favorably.
- Successfully represented the Societe des Bains de Mer et des Etrangers a Monaco in a trademark dispute against a cybersquatter. The parties submitted cross-motions for summary judgment, and the Eastern District of Virginia found SBM's mark valid and infringed; the court ordered return of the infringing domain names. The Fourth Circuit affirmed the judgment.
- Participated in a three-month jury trial successfully defending Avery Dennison Corporation against claims of trade secret misappropriation and unfair competition.
- Represented Suissa Miller in breach of contract and declaratory relief claims against and by Beech-Nut Nutrition Corporation.
