Speakers:

Aytan Dahukey, attorney at Sheppard Mullin

Jaime Lopez, MD, Stanford

Jeff Gertch, MD, UCSD

Elizabeth Mullikin, FACHE, FASET, Sutter Health

We invite physicians, administrators and leaders to participate in a discussion regarding the benefits and challenges of setting up an inhouse neurodiagnostic service. The discussion will include long term EEG monitoring as well as intraoperative monitoring services and others.

The goal is to share experiences and expertise from academic and community-based hospitals in order to build innovative, cost effective, state-of-the-art neurodiagnostic services that are safe and deliver quality.
