The 2019 DOD budget is funded; dry powder is abundant with upwards of \$B in capital availability; transaction multiples are at or near all-time highs....What planet is this ?...."Let's get ready to rumble in 2019"....What's your plan to take advantage of all these dynamic market forces?

Join us in Del Mar on Tuesday, February 5th as our panel takes on growth strategies and financing alternatives to capitalize on these dynamics. Hear firsthand from Mark Larsen of Cask LLC (a SD based business and technology management services firm) how they have addressed these challenges heading into 2019. Mark will be joined by Ken Hubbs, a partner from Riordan, Lewis and Haden, a private equity firm; and Christopher Pannacciulli from Bank of America/ML, a commercial lender.

Mark and the panel will discuss the opportunities and challenges in the current economic environment to include: recent transactions, A&D growth trends, deal multiples and financing terms. Take advantage of the collective wisdom from this great panel to help you shape your strategy for 2019.
