

Moss Adams Healthcare Conference

Vision 2020: Preparing for the Future of Health Care

November 7-8, 2019

We're pleased to present our 24th annual health care conference at the Red Rock Casino & Spa in Las Vegas on November 7 and 8, 2019.

Our exclusive conference brings together C-suite and executive teams from across the country to share industry knowledge, best practices, and new ideas.

Our conference will explore the latest industry developments—including success stories and strategies for implementing value-based care, Medicare for All, as well as predictions from political pundits on the 2020 election and how it might impact health care.

Health care executives and thought leaders from around the nation will converge to discuss the value of transforming health care through collaboration, innovation, and risk-taking.
