

Key Considerations for Forming, Licensing and Operating a California Health Care Service Plan

08.12.2020

When:

12:00 p.m. - 1:00 p.m. PDT

Sheppard Mullin Participant:

Lynsey Mitchel, Partner, Corporate and Healthcare Practice Group, Sheppard Mullin

About:

The legal, regulatory, compliance and operational requirements of running a Knox-Keene plan in California are extensive. The Department of Managed Health Care's enforcement of the Knox-Keene Act can be aggressive. This webcast will discuss the legal and operational issues that newly licensed Knox-Keene organizations should be aware of.

Webcast Objectives:

Upon completion of this webcast, participants will be able to:

- Legal, regulatory, compliance and operational requirements of a Knox-Keene health plan license
- Impact of the new global risk rules and the differences between types of plans (full-service (including non-restricted and restricted) vs. specialized)

Additional Information:

Who Should Attend: This webcast is geared toward organizations in the planning stage, applicants and newly licensed health plans in California.

Delivery Method: Group - Internet Based

Payment Information: There is no cost to attend this Mazars webcast.
