**An SEC Financial Reporting Update:
Insight & Analysis into Hundreds of SEC Comment Letters**

With SEC filing deadlines just around the corner, Grant Thornton's comprehensive analysis of hundreds of recent SEC comment letters will provide insight into key financial reporting areas that are a current focus of the Commission. In this complex world of reporting and disclosure requirements, we would like to help you build on existing knowledge of the reporting environment to proactively lessen the chance for SEC comments on your filings. This session will also provide you with an SEC accounting and reporting update so you can be better prepared.

Sheppard Mullin partner, Peter Menard, will be a guest speaker.
