Are you a privacy professional looking for an in-house career? Are you an employer looking to share potential opportunities with the industry? At Sheppard Mullin, we know how hard it is for companies to find skilled privacy professionals in this competitive marketplace.

According to a global study from Enterprise Strategy Group and Information Systems Security Association, the cybersecurity skills crisis is resulting in unfulfilled job requisitions, among other things. As part of Sheppard Mullin's ongoing commitment to the privacy and cybersecurity industry, we are pleased to maintain this job board of in-house privacy openings.

Other innovative efforts from Sheppard Mullin in the privacy and cybersecurity space include our Privacy and Cybersecurity Fellowship ([learn more here](#)).
