

Regulations and Standards

Cybersecurity: It Isn't Just for Techies Anymore!

Virtual Class

12.19.2017

Speakers

Jonathan Meyer

Townsend Bourne

Summary

In Part 3 of the series, Jonathan Meyer and Townsend Bourne will delve into cybersecurity regulations and standards applicable to government contractors. The course will examine NIST 800-53 and NIST 800-171, the National Archives and Records Administration (NARA) rule relating to protection of Controlled Unclassified Information (CUI), and cybersecurity clauses in the FAR and DFARS. Special Guest John Dermody, attorney-advisor at DHS with experience relating to these rules and cybersecurity issues in the interagency, will provide insight into the provisions.
