About:

Characteristics of a Successful Transaction

Behavioral health is an active sector across healthcare M&A, and companies focused on meeting the unique needs of autism patients are garnering interest from across the healthcare industry. This panel will focus on what it takes to prevail during an M&A process: how a company prepares, what drives value during a process, the importance of positioning the company with potential investors/buyers, some of the pitfalls to avoid, and more. Hear from a distinguished group of healthcare professionals representing the unique perspectives on an investment banker, an investor, and a CEO/Innovator from the autism sector.

Featured Speakers:

Aytan Dahukey, Partner, Sheppard Mullin
Peter Erickson, Managing Director, Triple Tree
Ronit Molko, Principal, Empowering Energy
Luke Schroeder, Principal, Gryphon
Chris Sullens, CEO, CentralReach
