Join us for the return of this popular class. Those who attend will learn the essentials and more about commonly used motions in D.C. courts, including:

- Motions for a temporary restraining order
- Preliminary injunctions
- Dismissal
- Summary judgment.

Our panel of experienced attorneys will discuss strategies and effective practice tactics for each of these motions. While intended for attorneys who practice in the D.C. Superior Court, those who practice before other trial courts may find this class of interest.
