

Fundamentals of Patent Prosecution 2010: A Boot Camp for Claim Drafting & Amendment Writing

PLI California Center, San Francisco, CA
07.07.2010

Sheppard Mullin partners Michael Molano and Marc Sockol will be among the faculty at this three-day "boot camp." The subject matter is directed to patent attorneys, litigation attorneys and patent agents with little patent experience. It will focus on teaching the basics of claim drafting, patent application preparation and prosecution, as well as a review of recent developments in the law. It is designed to provide a practical and solid foundation on which to build a stronger professional patent practice. The clinics offer a unique supplement to the kind of mentoring that senior attorneys are hard-pressed to provide to less experienced attorneys and agents. To register, please visit the PLI Web site.
