

CyberFest 2013

The Truth About Cybersecurity

Stone Brewing World Bistro & Gardens - Liberty Station

10.10.2013

What will you learn about?

Many organizations continue to simply discuss the challenges associated with implementing cybersecurity best practices rather than taking action. At CyberFest 2013 you will learn practical applications and implementation processes from experts. This is an event that will help you strengthen your company's defense against cybercrime and malicious activity.

Sheppard Mullin's Justine Phillips is speaking on cyberliability and how businesses can mitigate threats/intrusions/exfiltrations.
