

Sheppard Mullin Recognized in Global Data Review's Inaugural GDR 100

Global Data Review
12.11.2020

Sheppard Mullin has been named to *Global Data Review's (GDR's)* inaugural edition of the GDR 100, which identifies and profiles the world's best data law firms. Specifically, *GDR* recognizes the firm for having "some of the best data breach responders and data privacy litigators anywhere." *GDR* also noted, "The ensemble's contentious might sets it apart in the market alongside rapid responsiveness, proactivity, pragmatism and multi-jurisdictional expertise; when high-profile breaches occur or high-exposure privacy class action litigations are filed, it puts clients at ease with these attributes and its sterling track record on boundary-pushing cases."

According to the publication, the GDR 100 is the only global ranking that captures the capabilities, track record, and market reputation of the world's leading data firms. In addition, the GDR 100 is the first data law ranking that does not focus exclusively on data protection and privacy.
