

Sheppard Mullin Honored Among 2022 GDR 100

Global Data Review

01.10.2022

For the second consecutive year, Sheppard Mullin has been named to *Global Data Review's* (GDR's) GDR 100, which identifies and profiles the world's best data law firms. Specifically, *GDR* noted, "The firm shines representing marquee names in an advisory capacity, gaining an edge through its ability to embed data compliance into companies at a fundamental organisational level along with adaptability mechanisms."

According to the publication, the GDR 100 is the only global ranking that captures the capabilities, track record, and market reputation of the world's leading data firms. In addition, the GDR 100 is the first data law ranking that does not focus exclusively on data protection and privacy.
